RE: An important announcement from Dr. Agheg Yenikomshian

Dearest Patient,

I am writing to you with a few items of importance. Firstly, after over 40 years of serving the San Jose community, I will be retiring from the practice of plastic surgery effective June 1, 2019. It has been my honor and pleasure to have cared for those in need during this time.

Secondly, as I will no longer be actively practicing, I have entrusted my colleague, Dr. Kirk Churukian, to provide continued care to all my patients. A graduate of USC, Dr. Churukian is a board-certified plastic surgeon and Clinical Assistant Professor of Surgery at the Stanford University School of Medicine. He co-directs the chief resident cosmetic surgery training program in the division of plastic surgery. His San Jose office is located across the street from Good Samaritan Hospital. Dr. Churukian has been practicing in the community for over 20 years and specializes in facial cosmetic surgery as well as aesthetic breast surgery and body contouring procedures.

For patients who have had breast augmentation, Dr. Churukian is offering a complimentary evaluation and examination to help in monitoring and maintaining your implants.

For patients requiring any follow-up visits, he will be happy to see you at his San Jose office. For new cosmetic treatment consultations, he will see patients from my practice without charge for the initial visit. Additionally, he also provides Botox®, laser, and filler treatments. For additional information*, please visit www.DrChurukian.com or call 408-358-7000.

Importantly, I will be forwarding my phone to his office, and he will also be the custodian of your medical records. His full contact information is listed below.

Lastly, my heart is full because I know that with your willingness to let me into your world, you helped me not only become a better physician but a better person. It has indeed been a privilege to have had the opportunity to be your doctor these past 40 years. I wish you and your family many blessings and a continued happy and healthy life.

Sincerely,

Agheg Yenikomshian, MD
